LEGO-modell · skala 1:8 · bygginstruktion

John Deere Z315E ZTrak

485 delar **74** byggsteg **23 × 18 × 14** cm

Nollsvängsklippare med 42-tums klippaggregat

Så läser du instruktionen

Steg

Rutan överst på varje sida visar delarna som behövs i steget. Delar från tidigare steg är ljusare i bilden, så det som är nytt syns tydligt.

Röda pilar

Delar som inte sätts på ovanifrån har en röd pil som visar varifrån de kommer: underifrån, från sidan eller längs en axel. När delarna i ett steg sätts underifrån visas modellen underifrån.

Delmonteringar

Sidor med **grön ram** är en delmontering: främre ramen, klippaggregatet, karossen och sätet byggs för sig. Därefter kommer ett steg där den färdiga delmonteringen sätts på plats.

Knivarna

När modellen är klar snurrar de tre knivarna under klippaggregatet när du vrider på den gula knoppen ovanpå vänster sidobalk.

Dekaler

Dekalarket *stickers/z315e_stickers.svg* skrivs ut i skala 1:1 på klisteretikettpapper.

Delarna

Nästa sidor visar alla delar. Elementnumret är det som LEGO Pick a Brick använder; listan finns även som *docs/pick_a_brick.csv*. Bakdäcken (55976) finns inte på Pick a Brick, köp dem på BrickLink.

Klar!

- Vrid på den gula knoppen: de tre knivarna snurrar.
- Framhjulen är länkhjul som svänger fritt. Bakhjulen rullar var för sig, så modellen kan snurra på stället.
- Styrspakarna kan fällas ut i parkeringsläge eller in i körläge.
